SUGGESTED REMARKS FOR VICE PRESIDENT
(On Occasion of Departure of King Saud, February 9, 1957)

We have been favored for these past several days with the visit of Your Majesty and Your Majesty's party here in our capital. It has been a distinct pleasure for all of us to meet you and to become acquainted with you and your Ministers and Advisors. I know from the many officials with whom I have spoken, who have met with Your Majesty during these days, of the friendly understanding and cordial manner in which our common problems have been discussed. We believe that this visit will mark the beginning of better understanding between our two Governments and our two peoples. We wish for Your Majesty a safe journey and health and well-being for you and your people during the years to come.
